Young, dynamic, and student-focused, the University of Sannio is nestled in the historic city of Benevento in southern Italy. We provide a stimulating and supportive environment for both study and research.

At UNISANNIO, we are committed to recognising and fostering excellence. Our dual mission is to achieve outstanding research outcomes while also contributing to the economic, social, and cultural development of both the region and the nation.

Our programmes and research opportunities equip students with essential skills for successful careers in both professional and research fields.

UNISANNIO serves as a gateway to the world, boasting an excellent international reputation for high-quality research and teaching. We are distinguished by our strong commitment to a multidisciplinary approach to addressing complex challenges and our established presence in national and international research networks.

We actively promote entrepreneurship and technology transfer, encouraging the application of research findings to enhance company competitiveness, generate employment, and boost the local economy. Our research community is urged to develop technology transfer initiatives and foster an entrepreneurial spirit that translates research into products and services for societal benefit. UNISANNIO is also home to a growing number of spin-offs, companies founded by our graduates and researchers, showcasing the skills developed within our research groups.

At UNISANNIO, life extends beyond study and research. We offer our students and researchers a vibrant cultural experience, including music, theatre, sports, debates, and various other social events. Benevento, a city with a rich and captivating history, provides a human-sized setting that complements our dynamic academic environment.

Prof. Maria Moreno, Rector

HOUSE OF KNOWLEDGE SHAPING THE FUTURE

VISION

The University of Sannio, as a House of Knowledge, proposes itself as one of the primary actors of social, economic and cultural progress of the territory and, in this role, interprets and guides the transformations of the present time with the elaboration, innovation and knowledge transfer for the benefit of individuals and society; it also shapes the Future as an instrument for training and promotion of the individual, a place for the development of research and knowledge, Innovation pole of methodologies and techniques.

MISSION

The University of Sannio is founded on developing and disseminating knowledge and on the synergy between teaching and scientific research.

The primary institutional objectives of the University are the promotion, organization and development of teaching, advanced training and scientific and technological research, cultural and professional preparation of students, promotion of civil society, culture and innovation. To this end, it offers continuous opportunities for comparison with the social, cultural, political and economic system, as well as for coordinated actions of all institutions that contribute to the development of the territory.

OUR HISTORY

The University of Benevento acquired full administrative and teaching autonomy from 1 January 1998 (with D.M. 29/12/1997).

In the framework of national university education, a complex cultural project characterized by highly specialized training courses distinguishes the University of Sannio. UNISANNIO is a centre of national importance for specific disciplines.

The settlement of the university structures in the heart of Benevento is functional and summarizes the best Italian university tradition.

The beautiful city of Benevento hosts UNISANNIO and its three departments.

DEMM

The Department of Law, Economics, Management and Quantitative Methods is divided into two macro-disciplinary areas (legal and economic-statistical), with particular attention to evaluation processes and decision-making in the economy, the law in action and the contamination between economic and legal issues. It is located in the beautiful Piazza Arechi II and close to the Villa Comunale via Delle Puglie, where the structures are about to be returned to the community UNISANNIO after renovation and energy efficiency.

Università
degli Studi
del Sannio

DING

The Department of Engineering is centrally located in Benevento, with its beautiful buildings surrounding Piazza Roma.

The department is organized into three main areas: Civil Engineering, Industrial Engineering, and Information Engineering. It mainly focuses on developing complex software systems, optoelectronics, and applications in medical technology, automation, telecommunications, and infrastructure.

The Department of Engineering (DING) has been recognized as a Department of Excellence by the Ministry of Universities and Research and plays a significant role in the European Commission's initiatives within the European Union.

The Department of Science and Technology, with its newly established teaching centre on Via dei Mulini and a secondary facility dedicated to research located on Via De Sanctis, is organised into key areas: Biology and Geology. The department specialises in Bioinformatics and Molecular Genetics, Geological and Environmental Hazards, and Geo-Resources.

PROGRAMMES

UNISANNIO provides a comprehensive range of training programmes across twenty-five courses, encompassing the three principal domains of the European Research Council (ERC): Social Sciences and Humanities, Technological and Scientific Research, and Life Sciences.

BACHELOR'S DEGREES

- Business Administration
- Economics, Banking and Finance
- Statistics for Insurance and Finance
- Digital Administration Studies
- Civil Engineering
- Electronic and Biomedical Engineering
- Energy Engineering
- Computer Engineering
- Biotechnology
- Biological Sciences
- Geological Sciences
- Sports and Health Sciences

MASTER'S DEGREES

- Law (One-Time Cycle - 5 years)
- Economics and Management
- Statistical and Actuarial Sciences
- Civil Engineering
- Electronics Engineering for Automation and Sensing
- Energy Engineering
- Computer Engineering
- Biomedical Engineering
- Geotechnologies for Resources, the Environment, and Risk Management
- Biology
- Biotechnology for Health

“

Our students have the opportunity to enrol in structured mobility master's programmes, which offer the possibility of obtaining a dual degree. Four of these programmes are inter-university collaborations and confer a joint degree in partnership with the Universities of Naples "Federico II" and Molise.

Additionally, other programmes are conducted in partnership with the University of Coimbra (Portugal) and the Gdańsk Banking School (Poland).

”

The University of Sannio offers PhD programmes designed for advanced training and provides research opportunities for recent graduates.

PHD COURSES

- Person, Market, Institutions
- Environmental and Health Sciences and Technologies
- Information Technologies for Engineering

RANKINGS

Our students consistently rate the university as a favourable choice. According to the latest AlmaLaurea Report, 94% of graduates are satisfied with their interactions with faculty. Overall, 95.2% of graduates are pleased with their university experience. Furthermore, five years post-graduation, UNISANNIO alumni earn an average monthly salary that surpasses both national and regional averages.

STUDENT ACCOMMODATION

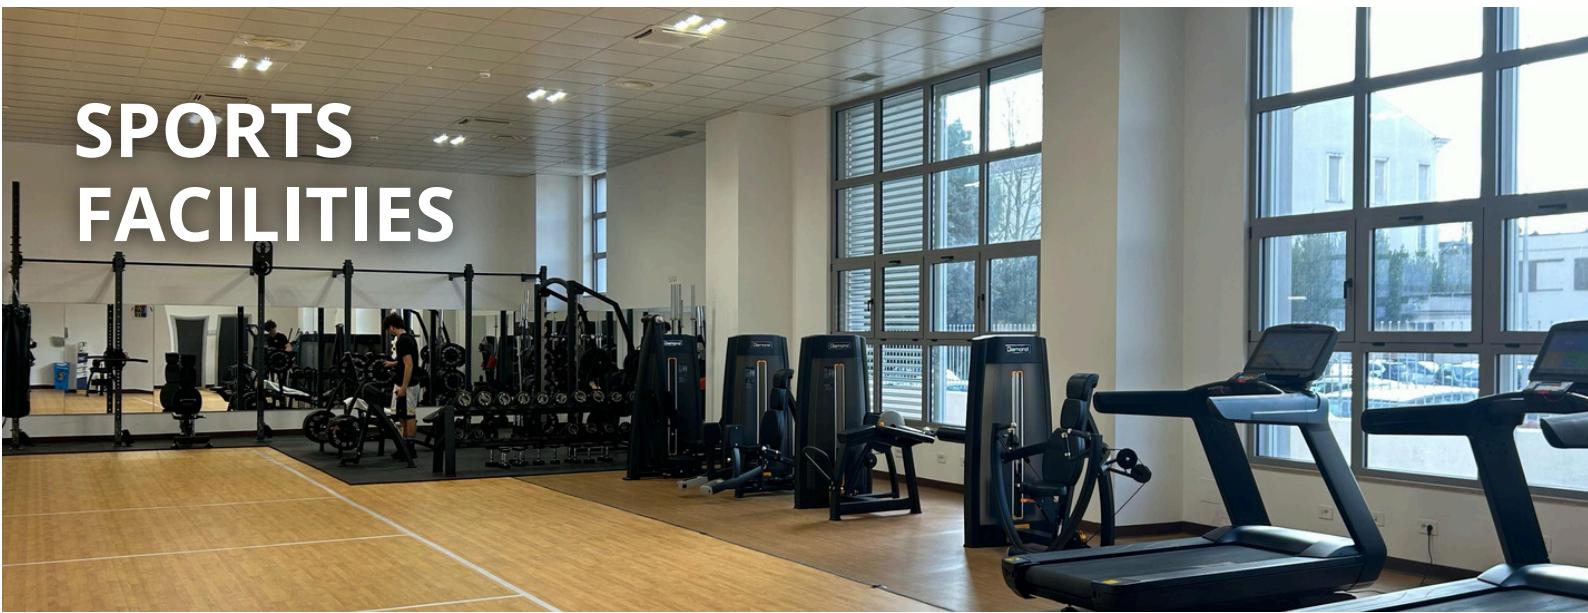

The University of Sannio's guest house is situated on Via San Pasquale, just a short walk from the Arco di Traiano in the heart of Benevento. This historic building has been renovated and outfitted to offer both private accommodation units and shared common areas. The guest house has 50 beds, primarily designated for students receiving scholarships who live away from home, with additional places available for students, doctoral candidates, grant holders, and Erasmus participants. Availability is limited. Additionally, a variety of private accommodation options are available throughout the city.

THE CANTEEN

The UNISANNIO canteen offers a welcoming space for dining and study. The catering service, run by a social cooperative, provides meals prepared with carefully selected local ingredients, with particular attention to quality and sustainability.

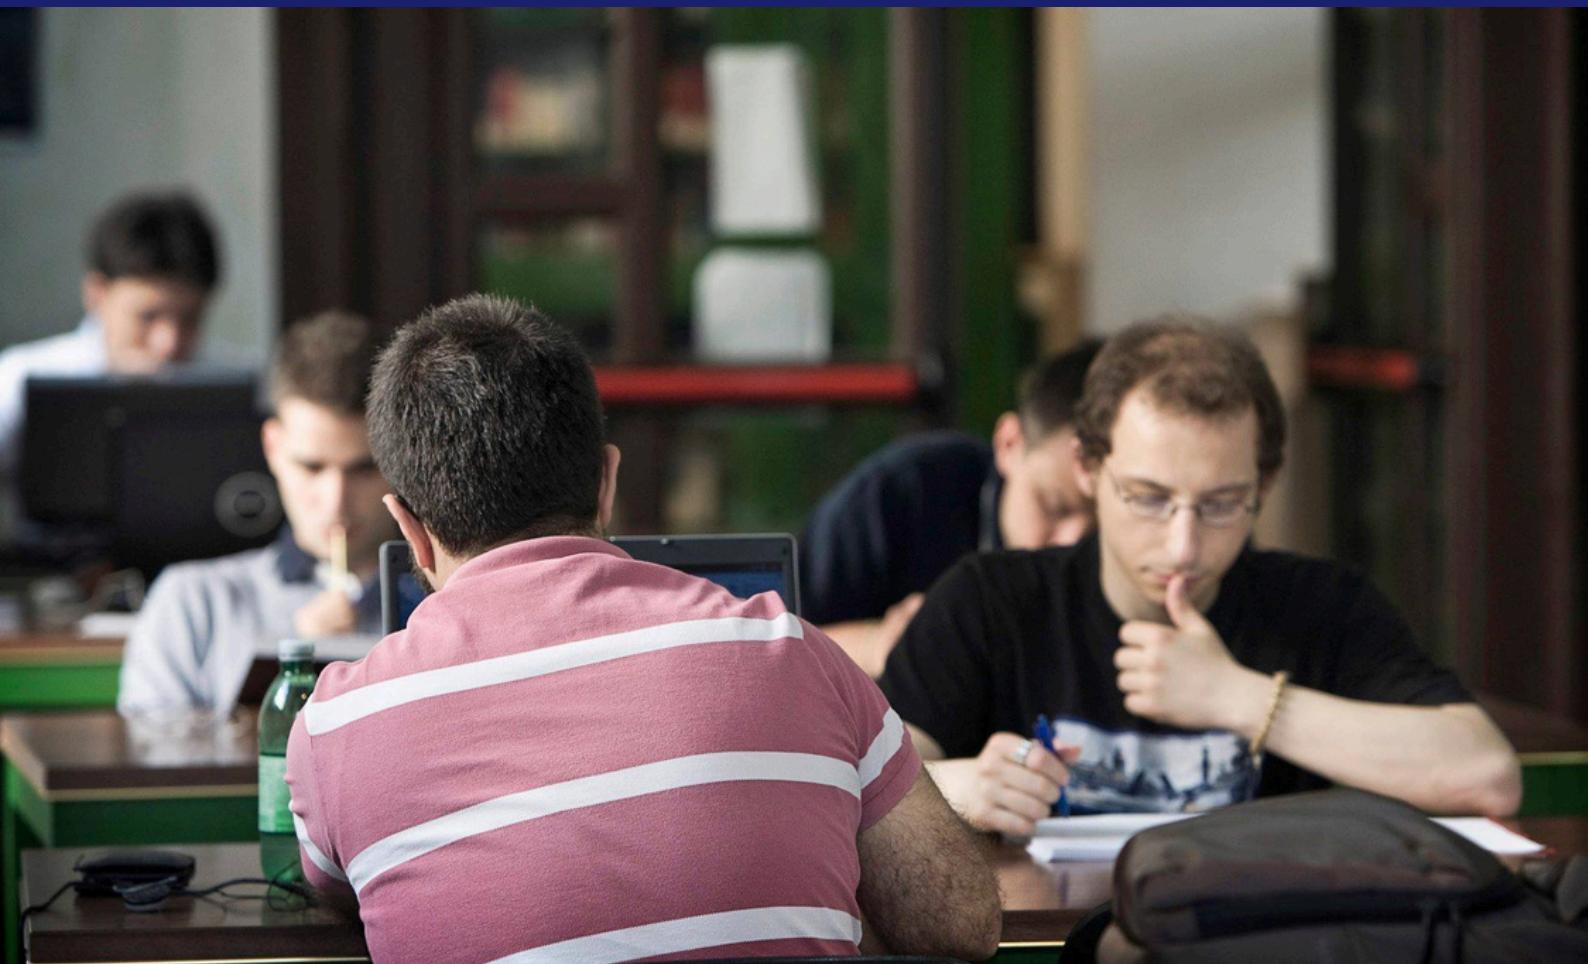

SPORTS FACILITIES

UNISANNIO offers a gym and a range of outdoor sports facilities designed to support physical wellbeing and an active university life. The spaces include padel courts, five-a-side football pitches, as well as basketball and volleyball courts, and are primarily available to students and staff. These facilities encourage regular physical activity, teamwork and recreational sport in an inclusive campus environment.

THE LIBRARY

It is housed in Piazza Arechi II at Palazzo De Simone and also has facilities on Via delle Puglie 76. It is a comprehensive center for research or study, with multiple facilities aimed at providing various resources to visitors or scholars. There are rooms designated for consultation and reading.

THE LANGUAGE CENTRE

The University Language Centre (CLAUS) at the University of Benevento plays a pivotal role in coordinating and advancing the educational, scientific, and service-oriented initiatives related to language instruction. It offers comprehensive support for both foreign language education and Italian language learning, catering to all students within the university, including those participating in the Erasmus programme..

S'ADIM, opened by the University of Sannio in the historic Sant'Agostino complex in the heart of Benevento, is an innovative interactive museum that brings history to life using advanced digital technologies. The immersive experience invites visitors to explore art, archaeology and architecture through virtual reality, holographic displays and multisensory storytelling, creating a compelling journey through the site's cultural and spiritual heritage. The museum celebrates the rich history of the former monastery while making it accessible and engaging for a wide audience.

PROMOTING INCLUSION

The University of Sannio, in its commitment to addressing the needs of students with disabilities, has established a range of services aimed at fostering not only their right to education but also their full inclusion within academic life. These services include access to specialized teaching aids and technical resources, as well as dedicated tutoring support, ensuring that all students can fully participate in the university experience.

COUNSELLING SERVICE

The UNISANNIO Counselling Service was established to provide students with a dedicated space for dialogue and reflection with experienced professionals, helping them navigate university life with greater awareness. This free service is available to all students facing personal, motivational, or academic challenges, offering support and strategies to overcome difficulties and enhance their overall university experience.

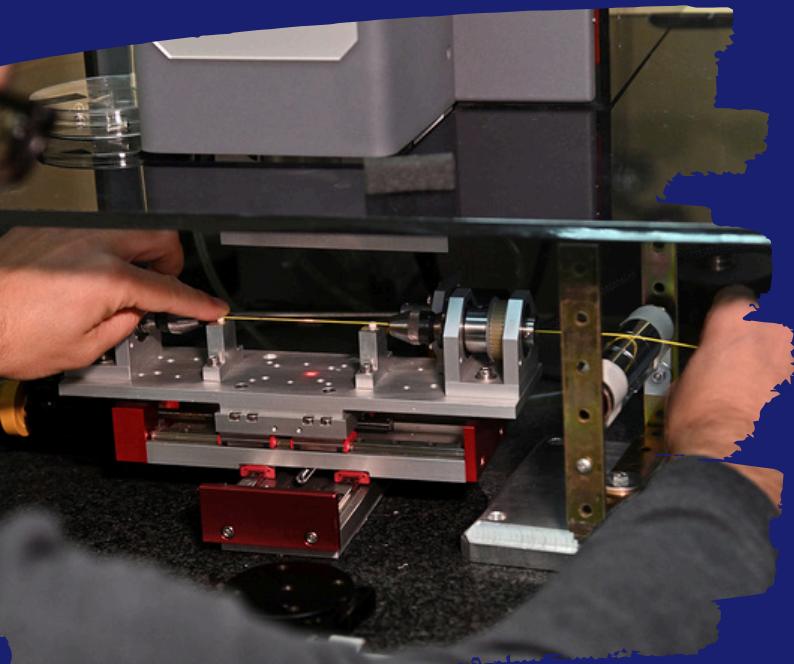

BEYOND THE CLASSROOM

At UNISANNIO, university life extends far beyond academics. A vibrant culture of student associations thrives, actively engaging students in a variety of cultural, sports, and leisure activities. These opportunities enrich the university experience, making it not just a place of study, but a dynamic community where students can fully immerse themselves and enjoy all aspects of university life.

RESEARCH

The University of Benevento has established quality research and the strong integration between research and teaching as key pillars of its mission. The University is dedicated to fostering an environment that enhances research excellence and cultivates a vibrant, stimulating, and collaborative intellectual community. Despite being a relatively young institution, it is proud of the widespread national and international recognition its academic contributions have already received.

This is also achieved through the integration of different skills and experiences, both within the University and with other research institutions and realities, which has led to the development of a network of national and international relations that sees us as protagonists in initiatives of broad scope and significant impact on the territory.

TECHNOLOGY TRANSFER ENTREPRENEURSHIP AND PLACEMENT

The University of Sannio strongly believes in interaction with society, territory and companies. The University was born with the idea of using and animating spaces and historic public infrastructure in the city to strengthen the link with the territory and develop training and research activities useful for the progress of the local community.

Consistent with its strategic vision of the third mission, the University of Sannio has played the role of "generous and available partner" towards numerous actors present on the territory. We are constantly committed to supporting institutions and companies in their technological and organizational innovation processes, countering the phenomenon of small towns abandonment, encouraging investment attraction towards the city of Benevento and, in general, towards the Sannio.

To facilitate the approach to the world of work is a program of internships with companies and institutions that facilitates personalized paths of accompaniment to the world of work.

The University of Sannio is one of the first in Italy to draw up a social and gender budget.

CULTURE AND SOCIETY

The University of Sannio is one of the main factors in the permanent social, economic and cultural development of Sannio and the interior areas of Campania and collaborates with several cultural associations.

The University Theatre Centre CUT is dedicated to organizing and conducting cultural and training activities that promote artistic and cultural development, with a particular focus on students.

INTERNATIONALISATION

The University of Sannio is highly engaged in international exchanges, with numerous scientific collaborations that frequently result in joint research projects with foreign universities and research centres.

The University promotes student mobility through the Erasmus+ programme and offers double degree programmes, enabling students to earn degrees from partner institutions abroad.

Benevento hosts ESN Maleventum, one of the most vibrant sections of the Erasmus Student Network in Europe.

HONORARY DEGREES

Tonino Perna

Entrepreneur in the textile and clothing sector
Economics and Management, 25 February 2000

Leopold B. Felsen

Physical
Telecommunications Engineering, 20 February 2003

Victor R. Basili

Computer Science Scholar
Computer Engineering, 6 April 2004

Pasquale Pistorio

President of STMicroelectronics
Telecommunications Engineering, 7 April 2004

Rita Levi Montalcini

Neurologist - Nobel Prize
Economy and Management, 18 June 2004

Lido Antony Iacocca

Italian-born US manager
Economy and Management, 1 October 2005

Luigi Abete

Entrepreneur, Pres. National Labor Bank
Economy and Management, 22 June 2007

Marc Jaeger

President of the Court of Justice of the European Union
Law, 25 November 2013

Diego Della Valle

Entrepreneur
Economics and Management, 26 May 2017

Riccardo Cotarella

Wine maker
Economics and Management, 1 March 2019

Antonio Loffredo

Parish priest of the Rione Sanità in Naples
Economics and Management, 24 March 2022

GRADUATION DAY

THE CITY

Benevento, the province's capital of the same name, is located in the Apennine hinterland of Campania, in the southern part of Sannio.

The city, located in a valley, is crossed by the rivers Calore and Sabato; from it you can see, to the west, the peaks of the massif of Taburno-Camposauro, the Dormiente del Sannio, to the east, the slopes of the Dauni mountains, to the north-west, Monte Mutria and Matese, and to the south the Partenio. The city was called first Maleventum, then Beneventum and finally Benevento.

Benevento was a Sannitic, then Roman, later Lombard, and finally, a papal city with a significant historical, artistic, and archaeological heritage.

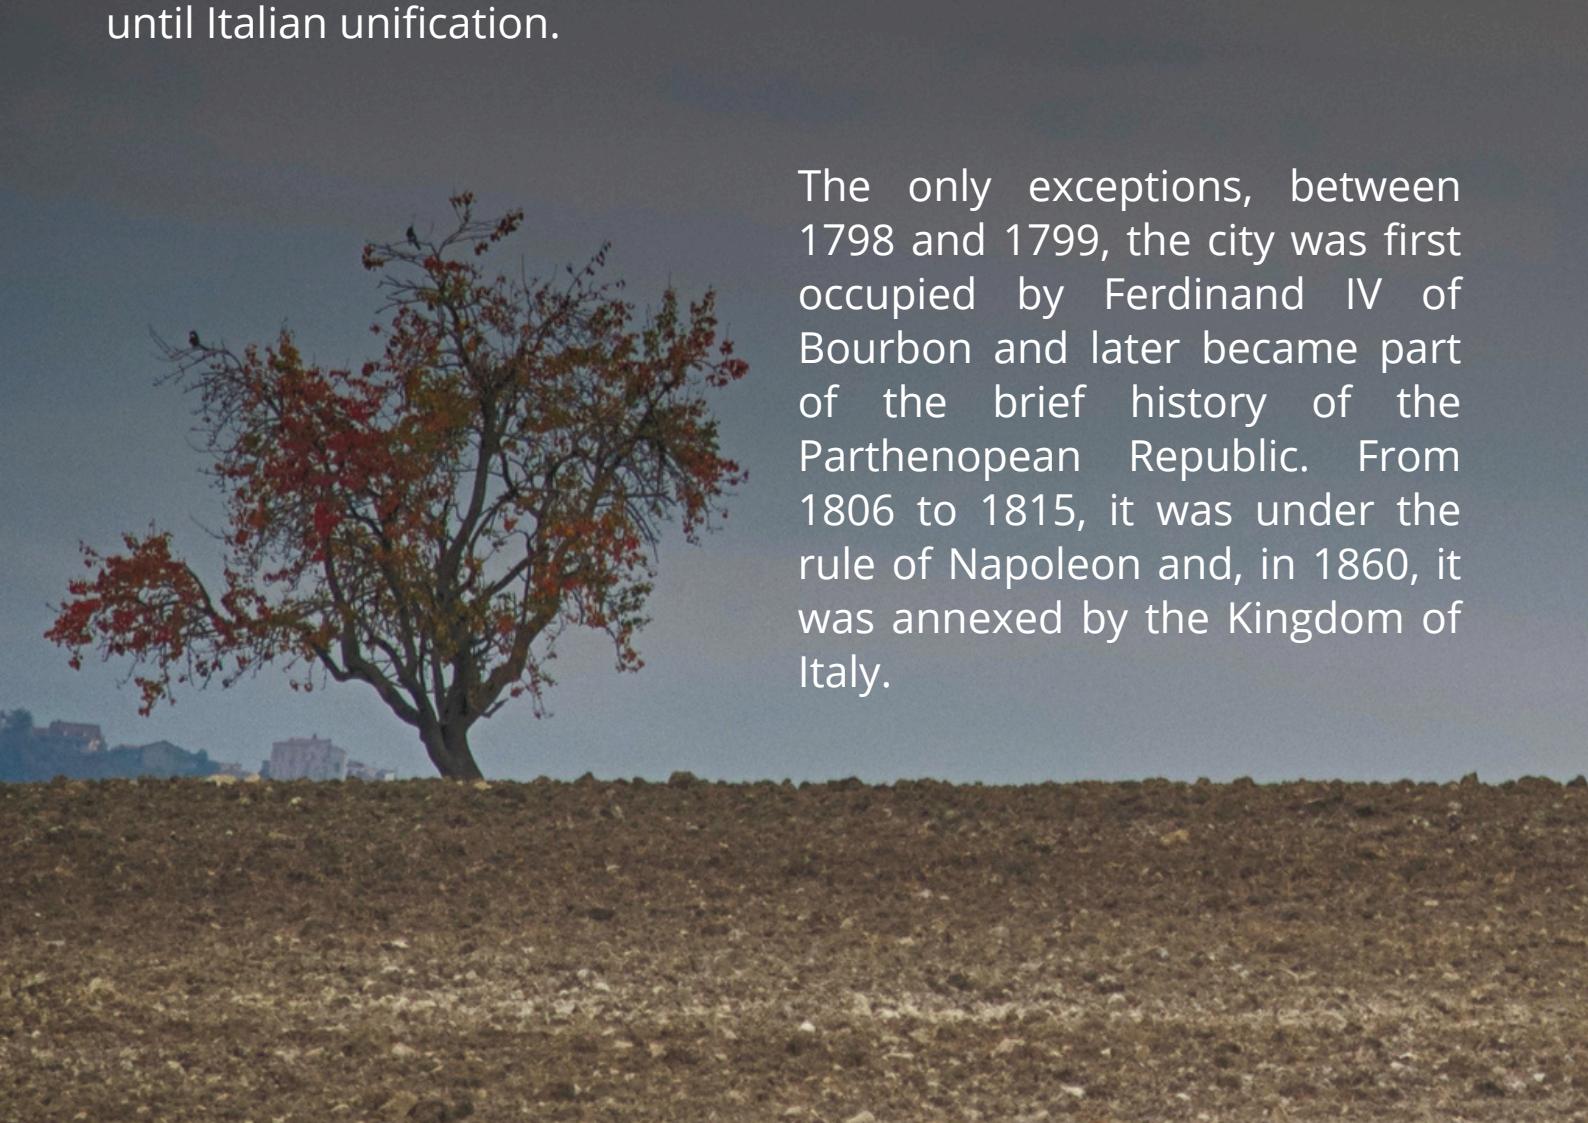

The city, according to legend, was founded by the Greek Diomedes, after the destruction and fire of Troy. The foundation seems to have been made by the Osci and the city would then pass to the Samnites. Ceramics and bronzes of the 8th and 7th centuries are the city's pre-Roman period testimonies. After a long resistance, the Samnites surrendered definitively to the Romans in 268 B.C., who renamed it Beneventum.

Some important Roman monuments, such as the Arch of Trajan and the Leproso Bridge, still enrich and beautify the city.

During the Middle Ages, Benevento was conquered first by the Goths, then by the Byzantines and, in 571, by the Lombards, whose domination lasted until 1077, when the city became a papal duchy until Italian unification.

The only exceptions, between 1798 and 1799, the city was first occupied by Ferdinand IV of Bourbon and later became part of the brief history of the Parthenopean Republic. From 1806 to 1815, it was under the rule of Napoleon and, in 1860, it was annexed by the Kingdom of Italy.
