

ICFA mini-WORKSHOP ON IMPEDANCES AND BEAM INSTABILITIES IN PARTICLE ACCELERATORS

September 19-22 2017, Benevento (Italy)

<http://prewww.unisannio.it/workshopwakefields2017>

International Advisory Committee

Karl Bane (SLAC), Riccardo Bartolini (DIAMOND), Mike Blaskiewicz (BNL), Oliver Boine-Frankenheim (GSI), Alexey Burov (FNAL), Alexander Wu Chao (SLAC), Yong Ho Chin (KEK), In Soo Ko (POSTECH), Elias Métral (CERN), Mauro Migliorati (Sapienza University of Rome), Ryutaro Nagaoka (SOLEIL), Kazuhito Ohmi (KEK), Katsunobu Oide (KEK), Luigi Palumbo (Sapienza University of Rome), Stefania Petracca (University of Sannio), Qin Qing (IHEP), Giovanni Rumolo (CERN), Elena Shaposhnikova (CERN), Gennady Stupakov (SLAC), Vittorio Vaccaro (University of Naples «Federico II»), Ursula Van Rienen (Rostock University), Rainer Wanzenberg (DESY), Frank Zimmermann (CERN), Mikhail Zobov (LNF).

**Deadline for abstracts:
April 30 2017**

Local Organizing Committee

Stefania Petracca (University of Sannio)

Maria Rosaria Masullo (INFN Naples)

Topics

- Beam coupling impedance/wake calculation
- Beam coupling impedance measurements
- Beam energy loss and RF heating
- Modeling of beam instabilities (analytical & numerical)
- Observations and mitigation of beam instabilities
